

SLEDMC

WEBSITE BRIEF — SLEDMC ACADEMY

A practical content and structure guide for the training and Europe-readiness platform

1. Purpose of the Academy Section

The Academy should be presented as the training and preparation engine behind SLEDMC. Its role is to turn suitable candidates into better-prepared, Europe-ready talent before employer matching and mobility.

2. Main Hero Section

Headline

SLEDMC Academy — Prepare for Europe

Supporting message

Professional skills. Language. European workplace preparation. Career readiness.

Primary buttons

- Explore Courses
- Register for the Academy

3. Academy Philosophy

SLEDMC Academy should prepare candidates beyond their technical occupation. The curriculum combines professional competence, language, European culture, employment knowledge, documentation awareness, employability and pre-departure readiness.

4. Core Academy Modules

Module 1 — European Language Preparation

- English for Europe/workplace English
- Italian, German, Dutch and other destination languages
- Workplace vocabulary
- Employer and telephone communication
- Reading basic employment information

Module 2 — European Culture & Integration

- European workplace culture
- Punctuality and communication
- Workplace behaviour
- Gender equality and personal boundaries
- Public behaviour

- Transport, healthcare and emergency services
- Country-specific orientation

Module 3 — Employment & Workers' Rights

- Employment contracts
- Salary and payslips
- Working hours and holidays
- Employee/employer responsibilities
- Workplace safety
- Basic tax/social-security awareness
- Recruitment fraud awareness

Module 4 — Documentation & Mobility Preparation

- Passport and identity documents
- Police clearance
- Certificates and experience letters
- Translations/legalisation where applicable
- Employment documentation
- Visa/work authorisation documentation awareness
- Digital document management

Module 5 — Professional Job-Specific Training

- Driver
- Hospitality
- Care & Healthcare Support
- Logistics & Warehouse
- Skilled Trades
- Future sector programmes

Module 6 — Employability & Interview Skills

- European CV
- Cover letter
- Online applications
- Video interviews
- Employer communication
- Mock interviews

Module 7 — Financial & Independent Living Skills

- Banking
- Budgeting
- Rent and deposits

- Utilities
- Public transport
- Healthcare appointments
- Digital services

Module 8 — Pre-Departure & Arrival Orientation

- Final document check
- Employment contract review/understanding
- Travel preparation
- Destination information
- Accommodation information
- First-week checklist
- Arrival and integration support

5. Flagship Programme — Professional Driver Academy

Professional driver readiness

EU road environment

Road safety and defensive driving

Vehicle checks and safety

Driving/rest rules

Tachograph

Working-time awareness

Loading/unloading and cargo securing

CMR and transport documentation

Navigation and dispatcher communication

Country-specific requirements

CQC/Code 95 pathway through appropriate authorised providers/partners

6. Sector Academies

Create separate course pathways under the Academy for Professional Drivers, Hospitality, Care & Healthcare Support, Logistics & Warehouse and Skilled Trades. Each pathway should combine general European preparation with occupation-specific training.

7. Course Page Structure

Every individual course page should show: Course name, target candidate, objectives, entry requirements, duration, modules, language, practical training where applicable, assessment, certificate/qualification, authorised external certification where applicable, next steps and registration button.

8. Candidate Readiness Assessment

Use an assessment before or at the beginning of training to determine professional experience, language level, qualifications, documentation status and the candidate's recommended pathway.

9. SLEDMC European Readiness Profile

Future digital feature: each candidate can have a structured readiness profile showing language level, professional qualifications, training completion, document status, interview readiness and pre-departure status. This profile can support employer matching.

10. Certification & Compliance

SLEDMC Academy certificates can confirm completion of SLEDMC training programmes. Regulated qualifications—such as driving licences or Code 95/CPC—should be delivered or certified through the relevant authorised institutions and European partners. The website should distinguish clearly between SLEDMC Academy training and legally regulated external qualifications.

11. Academy Delivery Model

Classroom training in Sri Lanka

Online learning where appropriate

Practical training through authorised training partners

European partner training

Assessments and mock interviews

Pre-departure orientation

12. Academy Dashboard — Future Feature

Candidates should eventually be able to see enrolled courses, attendance, assessment results, certificates, language progress, qualification status and European job pathway.

13. Final Call to Action
